Instruction Notes:

1. The HIV test device lot # and expiration date can be found on the test device pouch.
2. The lot # and expiration date can be found on the control box.
3. The built-in procedural control (C line) result is **Pass** if the reddish purple line appears next to Control “C”, reported as Pass. The control result is **Fail** if reddish purple line doesn’t appear next to Control “C”, reported as Fail.
4. The External control result is **Positive** if both reddish purple lines appear next to Control “C” and Test “T”, reported as Pos. If only one reddish purple line appears next to Control “C” and no line next to Test “T”, the result is **Negative**, reported as Neg.
