Case Categories: (for Blood Ordering Purposes)

Non-Pump:

Aortopexy
Aortopulmonary Shunt
Aortopulmonary Window
BT (Blalock-Taussig) Shunt
Central Shunt
Coarctation of Aorta
Diaphragmatic Plication
Pacemaker placement or generator change
Patent Ductus Arteriosus
PA (Pulmonary Artery) Band

Routine:

Aortic Valve Repair/Replacement (First time)
ASD (Atrial Septal Defect)
Atrioventricular Septal Defect (“Complete AV Canal”)
BD (Bidirectional) Glenn Shunt
Cor Triatriatum
Mitral Valve Repair (First time)
Partial Atrioventricular Septal Defect (“Partial AV Canal”)
Pulmonary valve repair/replacement (First Time)
Sub-Aortic Stenosis
Tetralogy of Fallot
VSD (Ventricular Septal Defect)

COMPLEX

All Re-Do cases <1 year of age except Bidirectional Glenn
All Premature/Low Birth Wt. < 4 months age
Aortic Valve Repair/Replacement (Re-Do)
Arterial Switch (Jatene)
DORV “Double Outlet Right Ventricle”
Double Switch
Ebstein’s Anomaly
Interrupted Aortic Arch
Fontan Procedure
Konno Procedure
Mitral Valve Repair/Replacement (Re-Do)
Norwood Procedure
Pulmonary Arterioplasty or PA reconstruction
Pulmonary valve or RV outflow tract replacement (Re-do)
Rastelli Procedure
Ross Procedure
Ross/Konno Procedure
Taussig-Bing
Total Anomalous Pulmonary Venous Return
Truncus Arteriosus

Unifocalization
VSD (Ventricular Septal Defect) plus second procedure other than ASD
