Lunch tutorial

Common Problems and Current Issues in Lung Pathology

Kirk Jones, MD
Associate Clinical Professor of Pathology

Saturday, June 5, 2010
12:15 P.M. – 1:15 P.M.

TOPICS COVERED

This Tutorial will present and discuss example cases that illustrate issues related to diagnosis of neoplastic and non-neoplastic lung disease. These include:

2. Interpretation of biopsies with diffuse fibrosis
3. Interpretation of the biopsy which looks normal at first glance.

OBJECTIVES

Participants will:

Review current guidelines for cancer staging.
Refine diagnostic algorithm for fibrotic lung disease.
Analyze issues to be confronted when a biopsy appears normal, including airway disease, vascular disease, cystic disease, and issues of sampling.

A separate fee of $75.00 (including lunch). Limited space
